

The background is a dark blue, textured surface. A white vertical line runs down the left side, and a white horizontal line runs across the middle. On the left side, there are several rectangular blocks: a white one near the top, a red one below it, a white one below that, and a white one at the bottom containing the text "'64". On the right side, there is a red horizontal block near the bottom. The title "JENKINTONIAN" is printed in white, bold, sans-serif capital letters, centered horizontally and positioned just above the white horizontal line.

Dear Susan-

Tomorrow when we are at the fair I'll keep an eye on Gemmie for you. If you can get my flat-tailed v. out W. Edmond day. Well, this year has gone fast and I'm really looking forward to the summer. Deep smiling, he'll only be gone for six weeks and then you'll have the rest of the summer. The school year, and who knows, the future, good luck.

Love ya,
Linda

Dear Sue,

Those discussions in Geometry did get a little out of hand but they were interesting and informative!

Dear Sue,
Another year another winner! For me that is, not you. We have had some fun, but next year should be absolutely great. I just think you may become the first lady of Kenton High! I hope you have a fun summer and be good to Jimmy!
L. Cheiley

Dear Sue,
No more Mrs. Allen, thank goodness! We've had a great time in Tule's class this year, ha! Have a great summer and be good!
Love ya,
Paul

It is commencement.

Oh,

The soft luminescence of the fading day plays on intent young faces,

glimmers on rustling white evening dresses.

Trees murmur softly,

and a mind gropes toward the dark uncertainty of what is to come.

The future beckons

but the past clings to the mind.

Thoughts well up that will not be suppressed.

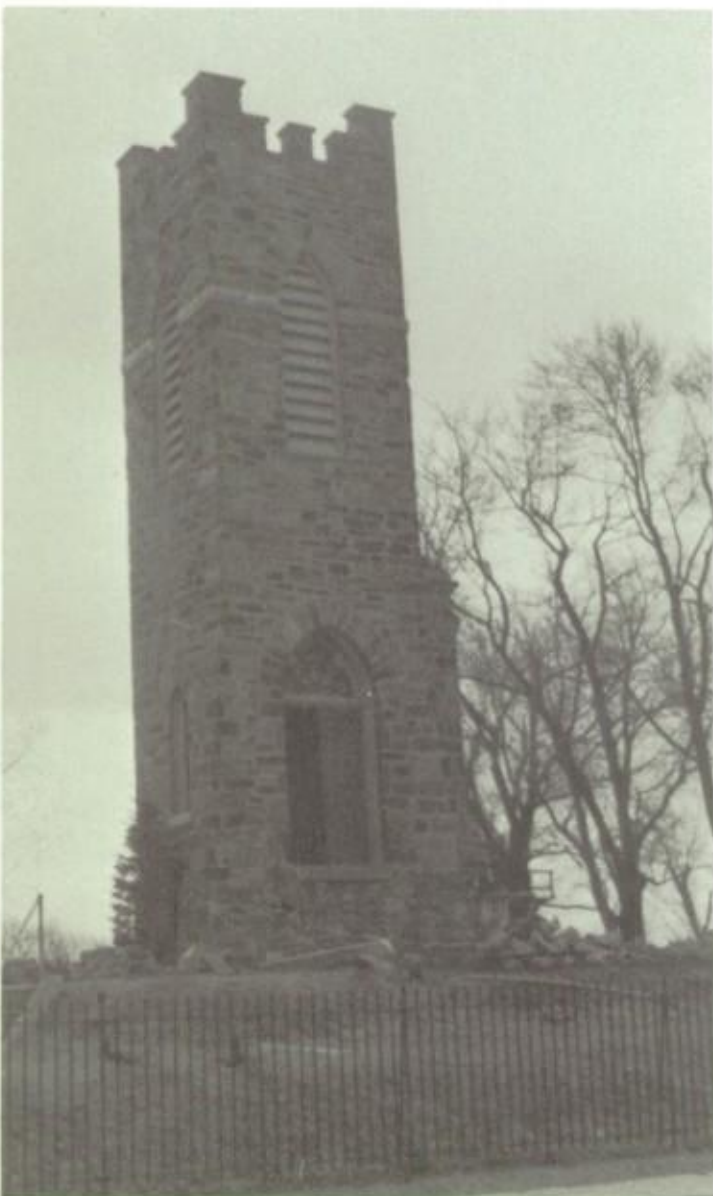

to stop time,

to turn back for only a second,

After a review of the traditional discussion on the true meaning of "Commencement—end or beginning," my attention was directed toward a study of the class image. I thought for a time, reviewing a miscellany of incidents, but the image did not take definite form.

My inability to establish a composite impression of the Class of 1964 concerned me at first, but then I realized that this was a logical reaction. After all, the Class of 1964—although a group—is basically composed of individuals. I found myself reacting to the comments and actions of individual members of the class. I was, in fact, thinking about people, unique individuals, with their own personal patterns of actions and reactions.

Basically, we contribute to the work of the class, to the activities of the school, to society in its wider scope as individuals. It would appear to follow, in logical sequence, that the reputations we establish or the impressions we leave are related to what we have done as individuals.

With this thought in mind, I reflect on an accumulation of pleasant and meaningful experiences involving the members of the Class of 1964.

My parting hope is that your individual influences will continue to be for good and that our relationship as individuals will not end at this point in time. My warm, personal wishes go with you.

Dear Moose,
Good luck in the
years to come and
will need it in our senior
year. Good luck again -
Love Judy.

Dear Sue,

Well, this year is almost through and I can't wait to get out. We've had some great times, such as going up to the air base and staying at the H.S. This year has been great and I think it's sad that it's ending - Jimmy being in Mexico and David being who knows where... oh well. We'll have to get together this summer & drive away the boredom.

Best adorable
Sue,
All kinds of
of luck that
summer. Don't
get into any
trouble. I wish
you good luck
with your
tale up to
David

Be good & take care!

Love ya!

Dear Sue,

Somehow you made it out of the Junior Class. you have to figure that you are only four years younger than Bob - so it would not be a bad marriage. Of course I think it would be much better with Jim. But either way you would be my loving sister-in-law.

Lots of luck & lots of love,
Howie

Dear Sue,

Well, this year have been the best year so far at J.H.S. I can finally say that I have gone steady. That has been a life goal for me. I know I will always be grateful for the six dates I've got (past one) for me.

Well, be good and remember - my crying towel will always be ready for you - any time.

Love Ya + (U.M.)
